**Happy Sleep Nasal Strips pk/30**

# Shoulder Pain Relief Pillow System

## From \$305\*

**PATENTED ARM POCKET**  
Takes pressure off downside arm and shoulder

### Relieves Pressure

Patented arm pocket allows your arm to rest comfortably without having it falling asleep or triggering shoulder pain.

### Symmetrical Design

With flexible arm positions so you can comfortably sleep on either side with the same shoulder relief benefits.

### Gradual Incline

Elevates your upper body at a 10° angle to take the pressure off of your downside arm and shoulder.

## Resista Rehab Rack and Mirror

The Resista Rehab Rack and Mirror boosts productivity in any rehabilitation space by combining intelligent storage with an integrated full-length mirror. Physiotherapists, trainers, and clinicians can easily organise cuff weights, dumbbells, and resistance bands for immediate access during busy sessions.

- Full-length mirror integrated
- Dedicated storage for up to 48 cuff weights and 22 dumbbells
- Quick-change band storage with 6 independent positions
- 22 angled dumbbell rods for organised access
- Holds 6 rolls of exercise bands or tubing
- Mobile design with 3 inch dual-braked swivel casters

Range

## Better Sleep with **SLEEPRRR**

Used widely across **clinical settings**, the Sleeprrr pillow has an **adjustable** and contoured design - allowing for an **individualised fit**.

This makes it suitable for a **wide range** of patients and presentations.

from **\$77.80**

## Why Clinics Choose Sleeprrr

### Adjustable for Patient Variability

Fully Customisable layers allow clinicians to better match pillow setup to individual patient needs.

### Easy to Prescribe and Explain

Simple design makes it easy for clinicians to recommend and for patients to understand and use.

### Quality Matters

Premium memory foam that shapes your head and provides spine support, and scalloped under-edges that allow shoulders to slip snugly beneath the pillow.

### Tailor to your patient in a matter of seconds

Foam inserts can be easily removed and adjusted to change the height and shape of the pillow. And foam noodles can be easily removed to adjust the firmness of the pillow.

Sonoscape has long been a leader in ultrasound, but earlier entry-level models like the A5 and A6 left room for competitors. That's now changed with the impressive new additions to their E-Series.

# Neuropen®

## Neuropathy Screening Device

from  
**\$42.05**  
+ GST

**EOFY DEAL**

**Buy 3 or  
more**

**10%  
off**

Neuropen® is the only peripheral neuropathy screening device incorporating both pressure and sharpness tests, giving clinicians a simple, compact, reliable and repeatable solution for testing large and small nerve fibres.

### Reusable.

The main body of the **Neuropen®** is designed to be used again and again.

### 40g Sharpness Test.

The replaceable **Neurotip™** provides a measured 40g force to accurately assess reduced sensation.

### 10g Pressure Test.

The **Neuropen®** **Monofilament** provides a measured 10g force to accurately assess reduced pressure perception.

### Replaceable.

The **Neuropen®** **Monofilament** can be replaced as required.

## Neurotips™

Neurotips™ are sterile, single use neurological examination pins, which eliminate the risk of cross infection. They are semi-sharp, to reduce the risk of skin puncture particularly on fragile skin.

**\$27 + gst/Bx 100**

## Neuropen®

### MONOFILAMENTS

The 10g monofilament test enables the clinician to map areas of reduced pressure perception by exerting a specific repeatable force on the test site.

**\$46.71 + gst/Bx 5**

# Rehabilitation Equipment

## Pathways Active-Passive Trainer

**\$7,400\***

Elevate your rehabilitation journey with the Pathways Active Passive Trainer, meticulously engineered for individuals facing low functional activity, enduring long-term rehabilitation, or grappling with physical constraints. This dynamic series, a beacon in therapeutic solutions, is masterfully designed to cater to both upper and lower body exercises within a minimalistic footprint, making it a quintessential addition to any space.

Key Features:

- **Innovative Touch Screen Technology:** Navigate effortlessly with our intuitive 7" LCD touch screen monitor, offering real-time feedback on speed, resistance, time, and rotation direction for a fully tailored workout experience.
- **Adaptive Passive Assistance:** In Passive Mode, the AP Pro seamlessly adjusts powered assistance in response to the patient's developing strength, fostering independence and progress.
- **Spasm Control Functionality:** With the patient's comfort in mind, the trainer intelligently pauses during spasms, offering gentle rotation changes to aid muscle relaxation and ensure a smooth, continuous exercise regimen.
- **Customizable Speed and Resistance:** Tailor your workout intensity with easily adjustable speed and resistance, accommodating the unique needs and goals of each user.
- **Dual-Direction Exercise Capability:** Engage in versatile workouts with the option to pedal forwards or backwards, enhancing muscle engagement and therapy effectiveness.

The Rehabilitation Treadmill (7.0T) is packed with features that reflect the true needs of physical therapists, this translates into patients feeling confident and comfortable in using this for their recovery in physical mobility.

Features;

- Low start-up speed of 0.1kph – one of the lowest in the industry
- Forward and reverse belt motion
- True zero speed belt lock – (others use motor control which is unstable)
- Decline feature – we offer this as our standard option
- Deck lift – for step compliance, plyometrics, ease of patient leg access for therapists and simple unweighting.
- Fully adjustable parallel bars supports a wide variety of users
- Multiple default and customisable programs are available
- Easy access with multi-functional rear step

## Dyaco 4.0R PT Recumbent Bike

The PT Recumbent Bike (4.0R) has a low-step entry that is inviting and accessible for users with limited mobility. Designed with increased comfort in mind for the user, including a comfortable ride experience with its reclined positioning for any user ability.

- Maintain your desired heart rate
- METs program for physical exercise
- Adjustable seat and inverted pedal for an optimal foot angle
- Seat moves forward and back, and reclines for comfort.
- Oversized, padded seat with lumbar support provides a comfortable fit for a wide variety of users. The seat allows for fore/aft and seat back angle adjustments.
- 40 Resistance Levels
- Wt 59kg Weight Capacity

**\$3,999\***

## Dyaco 7.0U MED Rehabilitation Upright Bike

Comfort is ensured for patients with features like its oversized, padded seat that can also be positioned with precision for an effective ride workout. The adjustable crank lengths cater for patients with a limited range of motion.

- Adjustable Pedal Crank
- BiDirectional Resistance
- 200kg Weight Capacity
- 50 Resistance Levels
- The console displays workout data
- The console displays essential, real-time patient performance feedback.
- Neurological pedals with forward and reverse resistance for retrograde pedalling

Adjust crank length to fit range of motion- To help patients with limited mobility or injuries, the pedals can be moved along the crank to accommodate range of motion as small as 15 degrees.

## Fluid ExerciseE685 Arm Cycle / Ergo Fully Adjustable

The E685 Arm Cycle is a fully adjustable Standing Upper Body Ergometer built for commercial application and designed to withstand the loads of high intensity powerful workouts or provide silky smooth resistance suitable for warm ups, cool downs and rehabilitation.

The E685 resistance is set via our patented 10x Adjustable Fluid Resistance Twin Tank system and the RPM is driven by you. The Arm Cycle is capable of handling the ballistic speeds of a HIIT workout and yet will remain smooth and consistent at very low RPM. This wide variation in load and speed capabilities allows you to train effectively to any workout program. The ground based E685 Arm Cycle movement involves long kinetic chains engaging many muscles from the ground up. Your core is activated to support your entire shoulder girdle when engaged in the arm cycle motion. The E685 provides load in either direction. Changing direction alters the emphasis on the muscles engaged, adding even more variety to your training.

# PhysioGait Unweighting System

The PhysioGait is a training device for simultaneous control of unweighting, posture and balance on a treadmill or firm surface. Systems providing dynamic unweighting are a perfect solution for training patients in a wide range of gait disorders. PhysioGait helps to maintain proper posture, reduces load, eliminates balance problems and improves motor coordination training. Unique harnesses are designed for uni or bilateral support of the body as well as for a gradual level change from fully loaded to fully unloaded.

Swivel sling  
(for sideways gait)

APE is **ONLINE** [www.apemedical.com.au](http://www.apemedical.com.au)

The screenshot shows the 'REGISTER' page on the APE Medical website. The page includes a navigation bar with links for 'Browse Shop', 'Shop Categories', 'New Clinic Setups', 'Customer Service', 'Education Arena', 'News', 'About Us', 'Contact Us', and 'NDIS'. Below the navigation bar, there are several service highlights: 'Fast Australia-wide Delivery', 'Click & Collect Available', 'Rated Excellent', and 'Dedicated Support Staff'. The main content area is titled 'REGISTER' and contains a registration form with the following fields and options:

- Account Type\* (Dropdown menu with 'Wholesale' selected)
- First Name\*
- Last Name\*
- Company Name\*
- Company ABN/ACN
- Your Business Type\* (Radio button options):
  - Physiotherapist
  - Chiropractor
  - Podiatrist
  - Doctor
  - Other Health Professional

To the right of the form, there is a section titled 'REGISTER FOR A 'WHOLESALE' ACCOUNT' with a list of benefits:

- View ALL of our products and pricing
- Place your orders online
- Keep favourite lists to make reordering easy
- View all product details and specifications
- All product pricing displayed on the website is GST EXCLUSIVE

Below this list is a section titled 'HOW TO REGISTER:' with a 5-step process:

1. Click on 'Login/Register'
2. Choose the 'Wholesale' option for the Account Type
3. Fill in your company details
4. Tick the option to receive our email newsletter
5. Click 'Register'
